PROGRAM

10:00	WELCOME Prof. Telma Franco
10:10	Framework of TU Delft and UNICAMP Collaboration Prof. Gustavo Paim Valença, VRERI UNICAMP
10:20	Introduction of Dual Degree Program between TU Delft and UNICAMP Patricia Osseweijer, TU Delft & BE-Basic Foundation
10:30	Showcase Dual Degree projects in Bioenergy PhD Program By candidates enrolled in the program
11:00	Research topics for new Dual Degree proposals Luuk van der Wielen, TU Delft & BE-Basic Foundation
11:10	Open Discussion: identify potential matches Luuk van der Wielen, TU Delft & BE-Basic Foundation <i>moderator</i>
11:40	Next steps, questions Patricia Osseweijer, TU Delft & BE-Basic Foundation
11:55	Launching Dual Degree Fellow Club and website
12:00	CLOSING

A dual degree PhD project is a 4 year doctoral research project including a doctoral education program, with supervision from both UNICAMP and TU Delft. The doctoral candidate will spend part of the project at UNICAMP and part at TU Delft. After a successful defence of the PhD thesis, both universities will issue their own doctoral diploma, referring to the joint supervision of the thesis.

Partners: Brazil: University of Campinas. And Netherlands: Delft University of Technology and BE-Basic Foundation.
